Abstract

A novel process for preparing a naphthalene derivative of the formula: wherein each of R<1> and R<2> is a lower alkyl group; one of R<3> and R<4> is hydrogen atom or a lower alkoxy group and the other is a lower alkoxy group; and Ring A is a substituted or unsubstituted benzene ring, or a pharmaceutically acceptable salt thereof is disclosed. Said compound is useful as a hypolipidemic agent.
